Round Table discussion topic was Food Security.

Sharon advised that the Youth Town Council is very concerned about food security and poverty and wishes to be engaged with the committee more.

Carla informed the committee that the Soup Kitchen in Oxford is changing its name to Community Kitchen. This year their donations have been down and more people are using the resources especially students. They may not be able to stay open if donations are not increased soon.

Evelyn spoke of the Lunch Program that the Holy Family Church on Church Street will be starting up again on January 11, 2023. (It has been closed down due to the pandemic) They usually feed up to 140 people. They are worried about transportation being a stumbling block. They are looking at creating a warming shelter to work in concert with the Winter Emergency Shelter. Evelyn said funding for the Lunch Program will need to be increased in order for them to continue. She was wondering if there is a governing body that can be contacted about food waste from grocery stores and restaurants. As of now these establishments must throw out food that is still good to eat, as per safety regulations.

Leon would like a panel discussion with stakeholders to see what the various programs are doing and how we as a committee can support them. Helen is going to get information from Stats Canada regarding household food insecurity.

Michelle told the committee that the funding for the school meal programs is down and due to higher costs of supplies the program's budget is depleting at a rapid rate.

Provincial Updates

Extended Producer Responsibility (EPR)

NSECC continues to work on drafting EPR regulations. Batteries, lighting, and additional electronics are likely to be rolled out first as they are not as complicated as EPR for PPP.

Divert NS has compiled the data from the EPR Summit and are hoping to meet with the Priorities Committee shortly to discuss next steps for municipalities.

C&D Regulation Changes

Don MacQueen reported that they are finalizing their review of the comments and editing the guidelines. They are hoping to be able to distribute the updated guidelines by late February.

When asked about the 1 year notice related to financial implications of the changes, Don reported: "NSE is looking at phasing in the changes to minimize the financial impact to the approval holders. This will include the groundwater sampling requirements, though other structural aspects such as well construction are also being considered. Once the Guideline is complete, we will have a better idea of timelines for the various changes, so that we achieve the 1 year notification requirements under the MGA"

300kg Goal

The province has set a goal of reducing waste to 300 kg per person by 2030 and there needs to be a plan in place by the end of this year which will outline how municipalities are to reach the goal. The province is hoping to do targeted consultation in the spring. NSECC reported that their focus right now is on getting the C&D regulations out, then EPR, then the 300kg plan.

Northern Region

The Northern Region Committee is looking for a Chair. The committee is hoping to have someone put their name forward during the next meeting scheduled for the end of March.

The Northern Region Agreement has been signed by all municipalities and a copy will be circulated to committee members.

Education & Enforcement

Solid Waste Hotline

The Solid Waste Hotline continues to be busy.

Social Media

Focus for the month was on Monthly “What Goes Where” posts, which included information on proper disposal of wrapping paper, plastic bags, paper towel & napkins, milk cartons, and winter collection reminders.

Household Hazardous Waste (HHW) Fall Event

Hoping to issue the RFP for HHW Services in February.

Solid Waste Collection Contract

The Collection Contract for Collection Services was awarded to Miller Waste Systems.

Arenas

New bins have arrived for the Amherst Stadium. Staff are hoping to launch the Litter Campaign officially on February 20th during Winter Carnival. The theme of the new campaign is “Put Waste In Its Place, Don’t Litter.

Staff were asked to provide signage to the Dr. Carson and Marion Murray Community Center to help with the sorting of refundables.

Schools

Staff reached out to all schools promoting Divert NS educational resources.

Pugwash Farmers Market

Continuing to work with Mary Purdy of the Pugwash Farmers Market to ensure that they are set up properly for the upcoming season. The committee is focused on Zero Waste and a Circular Economy.

5. New Business

5.1 Draft Financial Statements - Baker Tilly Nova Scotia Inc. Auditors

Draft statements were available to be presented. However, there were still a few items that are being worked on to finalize the statements. As a result, there would be changes that will affect the financial statements regarding the sale of the landfill and rather than present the statements now, it was suggested to wait until the items outstanding are included before presenting the financial statements.

Senior Accountant Ruthann Brookins discussed that the information regarding the sale of the landfill has been outstanding for months now, and Baker Tilly had our financial statements ready essentially in June. CJSMA (Cumberland Joint Services Management Authority) completed their financials in October 2022. The CAO's are to meet to agree on the amounts for the sale of the landfill. Town of Amherst has completed their financial statements and subsequently may have to do an adjustment to reflect the sale percentage amount.

The goal was to have this number available in January 2023.

Baker Tilly clarified that they were not able to issue drafts of the financial statements until two weeks prior to the meeting given the initial percentages from the landfill. However, because they will change once the percentages are clarified, Baker Tilly would need to come back again to re-present the statements, which, would not look favourable for the town. Further, it was discussed that there were some outstanding items yet to discuss that just came

up in the past week which makes presenting the financial statements difficult if not impossible.

Baker Tilly recommended to wait until January 2023 to see what information can be obtained and then plan at that point on how to proceed with the financial statements.

Moved by Councillor Jones and seconded by Deputy Mayor MacDonald to give recommendation to Council to direct Baker Tilly Nova Scotia to proceed with the draft financial statements by January 13, 2023, if confirmation from outstanding items is not available before then.
